ENVIRONMENTAL POLICY

Our WWTP is firmly committed to the implementation of an Environmental Management System (EMS) which will minimize negative impacts on the environment and which will control the wastewater treatment costs.

In fulfilling this commitment, the WWTP Direction team has:

- Established procedures to promote Continuous Improvement of compliance with all applicable environmental laws and regulations, and to improve the WWTP’s work processes and practices, to protect environmental health and public safety to interested stakeholders, and to manage or minimize Environmental Impacts;
- Established procedures to continue efforts to strengthen and improve knowledge of environmental issues within the WWTP and to prevent pollution attributable to WWTP, and to minimize waste and impacts to natural resources.
- Sought, and continues to seek, optimal operation of the WWTP Facilities to minimize Environmental Impacts and practice pollution prevention where technically and economically feasible, even if not required by law or regulation;
- Established a manual that provides the framework for development and periodic review of the Management System, Objectives & Targets, and environmental compliance with all laws and regulations, as well as with the requirements of any other program to which the WWTP subscribes.
- Promoted, and continues to promote, cooperation and understanding with the public, customers, and governmental agencies by developing and reviewing economically feasible and environmentally sound wastewater treatment Objectives & Targets.
